FATIH DIKMEN

I'm Fatih Dikmen, a versatile professional with expertise in Graphic Design, Video Editing, and Web Development. I graduated from Gumushane University with a degree in Graphic Design, and over the past 10+ years, I've cultivated a broad skill set across these creative fields. Whether designing visually striking graphics, crafting engaging video content, or developing intuitive websites, I have had the privilege of working on both commercial and non-commercial projects.

My work has played a pivotal role in helping businesses, brands, and individuals stand out through innovative visuals, compelling video storytelling, and seamless web experiences. With every project, my goal is to create designs that leave a lasting impression and elevate the identity of those I collaborate with.
